

SWISS TIMING

Flash led starting signal

Flash

Flash is a self-contained optical starting signal for swimming competitions, to allow all competitors and spectators to see the exact moment of the start.

Unlike acoustic signals that can be masked by surrounding noise, the flash can be seen from wherever you are in the venue, due to the ultra bright led technology selected.

The flash is intended to complement the acoustic start signal, and connects directly to the timing system via an extension cable of up to 100m. The visual signal of the flash ensures that all athletes receive the start signal at the precise same moment, including those with impaired hearing. Up to 10 flashes can be linked together with the standard tuchel cable included in the standard set.

Article number	3399.951	
	3399.954	4 lanes, including 5 m cables between flashes
	3399.956	6 lanes, including 5 m cables between flashes
	3399.958	8 lanes, including 5 m cables between flashes
	3399.950	10 lanes, including 5 m cables between flashes
Power	12V via StartTime II	
Flash reaction time	≤ 1ms	
Duration of a flash	48 ms	
Minimum duration impulse	50 ms	
Operating temperature	0°C to +50°C	
Storage temperature	-10°C to +60°C	
Protection	IP54	
Dimensions	138 x 190 x 222 (H) mm	
Weight (without cable)	600 g	
Cable length	25 m	
Polarity of the start impulse	Normally closed	

1865.050
1865.100

extension cable 50 m, on winder
extension cable 100 m, on winder

Flash Top features

- Self-contained
- Extra luminous
- Cable length up to 100 m
- Best complement to acoustic start system
- Flash and acoustic start system are fully synchronised
- StartTime II powered
- Easily visible from anywhere
