

PAS 68 SECURITY PLANTER

PAS68 PLANTER (BSI PAS68:2010) V/7500(N2)/64/90:2.8/7.2

Vehicle Test Weight	Vehicle Class	Vehicle Speed kph	Vehicle Angle °	Vehicle Penetration m	25KG+ Dispersion m
V/7500 KG	N2	64.1	90	2.8	7.2

Crash tested to 7.50 tonnes at 40mph/64kph.

Universal Slimline Plater 40 (BSI PAS68:2010)

This system is one of the most low cost solutions on the market, for a crash rated PAS68 Planter and installation cost. (Low cost installation)

The Safetyflex universal slimline planter is the worlds smallest crash rated security planter and is the only slimline planter in the marketplace that is universally designed to be made to any sized required. The planter is designed as surface mounted with a shallow foundation. This system is so shallow it reduces the need to re-divert utilities. This slimline security designed planter can easily fit onto narrow walkways outside banks, train stations, sports stadiums and will not take up large amounts of floor space and is very aesthetically pleasing. One great advantage with this system is the planter is only 100kg in weight so you need no heavy plant to off load or move it into place. The minimum length is 1.48 metre long and the width is 450mm or to whatever the client requires.

The planter has been crash tested to BSI PAS68 to stop a 7.5 ton truck travelling at 40mph or 64km/h at 90 degrees from breaking through the security line.

APPLICATIONS

The Safetyflex PAS68 Planter is ideal for:

- Airports
- Sports Arenas
- Retail Parks
- Police Stations
